Over for details →

The entire **YES!** program integrates biblical principles of work and stewardship of talents in a format that engages and informs the student.

YES! begins with a *Guidebook* that is fun, exciting, self-scoring, and full of supporting materials to help young people identify their unique, God-given design and understand how their talents fit into vocational or career fields. It features in-depth surveys in four areas: Personality Style, Interests, Abilities, and Priorities.

Using a travel theme to communicate key concepts, the *Guidebook* leads students to transfer their survey results to an application pamphlet called the *Passport*, where they apply the results to current activities and future careers.

Unfolding Your Child (the parents' guide) provides parents with an overview of the program and shows them how they can be a part of helping their child work through the **YES!** process.

Coming November '98

A 75-page *Leaders' Guide* facilitates the administration of the **YES!** process in

Christian schools, home schools, church youth groups, and youth camps. It has step-by-step, easy to follow instructions, including two lesson plans, an administrative calendar checklist, and resources used to administer the **YES!** A 27-slide *Promotional Presentation* is currently available for download from <http://www.cfcministry.org/yesresources> in PDF and PowerPoint formats.

YES! It's here! A powerful tool to help young people find direction in life.
