

CROWN FINANCIAL MINISTRIES

Discovering God's Way Of Handling MONEY

TEEN STUDY

The **Discovering God's Way of Handling Money** teen study offers solid biblical principles and practical instruction on the issues that teens are facing today.

Created for ages 13-17, this Bible study explores the myths of materialism and money as it relates to teenagers. In addition to a weekly Scripture verse to memorize, the curriculum encourages teens to pray for one another during the 10-week study. Practical exercises will help teens put into practice what they are learning. Topics covered include debt, counsel, honesty, work, friends, and more.

Many teens—with no former budgeting experience—will learn for the first time how to manage their money.
